OUR OBJECTIVES

ECO-PB promotes organic plant breeding to support sustainable agriculture, protect the environment, and conserve biodiversity. We provide a platform for knowledge exchange, workshops, and guidance for breeders, farmers, researchers, and policymakers.

OUR PRINCIPLES

We follow IFOAM Organic Standards and EU Regulation 2018/848, using approved breeding methods. ECO-PB is a proud member of IFOAM Organics International, IFOAM Organics Europe, and IFOAM Seeds Platform.

EUROPEAN CONSORTIUM FOR ORGANIC PLANT BREEDING

Since 2001, we promote organic plant breeding to support eco-friendly farming, protect the environment, and preserve plant biodiversity.

OUR MEMBERSHIPS

Join ECO-PB and become part of Europe's network for organic plant breeding. Connect with experts, shape standards, exchange knowledge, and strengthen organic agriculture across Europe.

FULL MEMBERSHIP (€500-1000/YEAR)

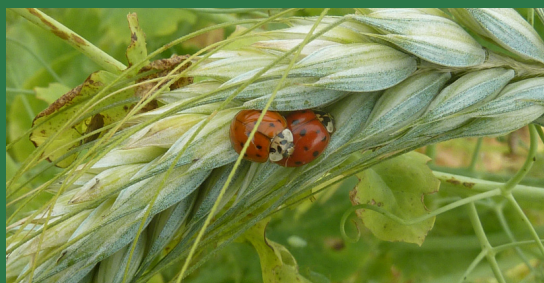

For organisations and enterprises. Includes voting rights and active participation in shaping ECO-PB's work.

ASSOCIATE MEMBERSHIP (€100/YEAR)

For individuals (farmers, breeders, researchers, advisors, educators). Access to the network and activities.

YOUNG PROFESSIONALS IN ORGANIC PLANT BREEDING

Free informal platform supporting young organic breeders and collaboration across Europe.
